Hon. Edwin W. Burritt
State Engineer
Cheyenne, Wyoming

RE: S-F2-133

Dear Mr. Burritt:

On November 16, 1934, the Federal Emergency Relief Administration approved a project for the purpose of adjudicating water rights on Henry Fork for \$5,023.32. The committee from Burnt Fork, Lone Tree, and other towns in that vicinity, at the time the project was approved, assured the Utah F.E.R.A. that like and similar amounts would be set up by the Wyoming F.E.R.A., but to this date nothing has been done.

No expenditure can be made in Utah on this project until Wyoming sets up its project, and, indeed, what is worse, all this money is about to be withdrawn. Might I ask, therefore, that you place this letter in the hands of the proper Wyoming officials asking for action or a statement to the effect that there will be none taken. This must be done on or before July 1, or else the fund may be diverted.

Very truly yours,

T. H. Humpherys
STATE ENGINEER
